A Healthy Fundraising Program

Brought to you by:
**Idaho Preferred® - Idaho State Department of Agriculture
Child Nutrition Programs – Idaho Department of Education**

Fundraising is an important part of every school's activity calendar. But sometimes it can become a difficult task recruiting volunteers to organize the program, finding items of value to community supporters and getting kids excited about selling. We would like to offer a new program that may help address some common fundraising issues – while netting the school approximately **\$4.25 per item sold!!**

Idaho Preferred®, a program to identify and promote Idaho food and agriculture products; in conjunction with Child Nutrition Programs at Dept of Education, has created an exciting fundraising program for schools. It is easy, features healthy products everyone can use, and creates excitement by offering students the opportunity to sell something new and different - and learn about local agriculture products.

Schools who are not tax-exempt should collect tax on each item). Order enough forms for each student to have one or two – or make copies as needed.
